

# QGreenland

www.QGreenland.org

- A **free mapping tool** to support interdisciplinary Greenland-focused research, teaching, decision making, and collaboration.
- Combines key datasets into a **unified, all-in-one GIS analysis and visualization environment for offline and online use.**
- An **international Editorial Board and Project Collaborators** will connect the QGreenland Team to data and user communities.

Visualization of future QGreenland GIS environment
